Murray Darling Environmental Foundation

The Murray Darling Association Environmental Foundation is an initiative of the Murray Darling Association. The Foundation was formed to enable businesses, organisations and individuals to contribute in a tax-effective way to improve, maintain and restore land and water resources of the Murray-Darling Basin as well as developing environmental skills, capacity and best practice management among people, communities and organisations within the Basin.

This Foundation's projects, links and relationships complement and support the Murray Darling Association's membership of 100 Local Government councils and provide leadership and project opportunities.

Vision

The Environmental Foundation ensures there is a significant fund to enable the restoration of the Murray-Darling Basin.

The Foundation's committee has agreed that projects could be approved in the future in the following areas:

- Research
- Education
- Promotion of sustainable development
- Joint Ventures
- Works and measures to conserve the natural resources of the Basin.

Water Bank

The Foundation has established a Water Bank to invest in water for environmental purposes. A small parcel of high security permanent water has already been purchased for use in the long-term and will be regularly added to over time. The Foundation Committee will deploy the water for works that benefit Murray-Darling Basin environments and communities.

Donations

The Foundation is approved under the Income Tax Assessment Act 1997 to receive Tax Deductible donations, so accordingly all gifts over \$2 to the Foundation are Tax Deductible.

A separate Environmental Foundation committee has been formed to ensure that the Foundation is independent of the Murray Darling Association and any funds received will be acknowledged and all expenditure will be properly accounted for and audited annually.

Donations are Tax Deductible under the Income Tax Assessment Act 1997. Donations can be made by money order or by Visa/Mastercard/Bankcard, and sent to:
